

**BEFORE**

West Point Plaza is a 21 story senior residential apartment building that was built in 1978 on the Near West Side. The entrance vestibule swing doors were replaced with automatic sliding doors to allow easier passage for the residents. The new Doorman Desk contains a new state of the art security system. The original narrow slot exterior windows on the first floor were combined into larger openings to bring in more natural light.

**AFTER**

**BEFORE**

The First Floor Amenity Spaces experienced a very high level of use resulting in the need to replace most of the interior finishes and to make improvements in the functionality. The leasing office was remodeled. The Multi-Purpose Room received all new finishes and lighting, plus a Business Center alcove. The Catering Kitchen was completely replaced. The public wash-rooms were rebuilt and made handicapped accessible.
